Overview of adapters for brand switch systems

homematic **IP**

The switch series adapters enable Homematic IP actuators for brand switches to be easily integrated into existing installations with different manufacturers and designs with little additional expense or installation work. The following overview gives all the brand switch series that can be used with the separately available adapters. Detailed step-by-step instructions for installing the actuators can be found in the respective operating instructions for the device or adapter.

i   The listed adapters can only be used with the Homematic IP actuators for brand switches of type HmIP-B*xx*-**I**.

i   The specified manufacturer article numbers may differ (e.g. due to colour variants).
